III. RESPONSE INFORMATION

A. Initial Situation:

See initial POLREP.

B. Actions Taken:

The following actions were accomplished during the period of December 11-15, 1995:

1. ERCS asbestos abatement subcontractor, Jet Vac, Inc. (JVI), continued to remove asbestos overhead piping insulation and asbestos-containing debris from the inside of the buildings.
2. On 12-11, approximately 980 LF of asbestos pipe insulation, 40 ft³ of thermal system insulation (TSI) on air ducts, and 34 yd³ of asbestos-containing debris and loose ACM were removed.
3. On 12-12, four rolloff boxes (68 yd³) of ACM were disposed of at Community Landfill, Morris, Illinois. Approximately 320 LF of asbestos pipe insulation and 50 yd³ of asbestos-containing debris and loose ACM were removed. Asbestos abatement work in Building HH was completed.

4. On 12-13, one rolloff box (20 yd³) of ACM was disposed of at Community Landfill. Approximately 1,000 LF of asbestos pipe insulation, 400 ft² of TSI on air ducts, 800 TSI on tanks, and 47 yd³ of asbestos-containing debris and loose ACM were removed.
5. On 12-14, seven rolloff boxes (127 yd³) of ACM were disposed of at Community Landfill. Approximately 80 LF of asbestos pipe insulation, 350 ft² of TSI on air ducts, and 60 yd³ of asbestos-containing debris and loose ACM were removed. Approximately 282 tires were cleaned and placed in caged trailers for IEPA disposal.
6. On 12-15, approximately 100 LF of asbestos pipe insulation, 100 ft² of TSI on air ducts, and 76 yd³ of asbestos-containing debris and loose ACM were removed. Asbestos abatement work in Buildings CC and FF was completed.
7. ERCS personnel air sampling was conducted. No elevated readings were found using PCM analysis.
8. Numerous laboratory chemicals were collected from Building V and staged for disposal.

IV. NEXT STEPS

1. Remove and dispose of all asbestos lying on the ground and from overhead piping inside of the buildings.
2. Sample contents of drums if necessary.
3. Arrange for disposal of laboratory chemicals.

V. KEY ISSUES

1. IEPA has agreed to remove approximately 1,800 tires located on site.
